TESTS REQUESTED

This test requisition is only to be used for COG samples

CYTOGENETICS

Chromosome Analysis, Blood/Marrow [510999]
 Chromosome Analysis, Solid Tumor [510995]

REVEAL® SNP MICROARRAY

Reveal® SNP Microarray [510002]

FLUORESCENCE IN SITU HYBRIDIZATION (FISH) PROFILES

Profiles below include all probes listed. For specific probes, please check individual boxes.

ALL

ALL Profile [510324]
 BCR/ABL1, t(9;22) MLL ETV6/RUNX1, t(12;21) 4, 10, 17
 CDKN2A (p16) TCF3 (E2A)

AML

AML Profile [510336]
 PML/RARA, t(15;17) CBFβ (Inv 16) RUNX1T1/RUNX1, t(8;21)
 KMT2A (MLL) 5q 7q

NHL

IgH/CCND1 (BCL1) BCL2 MYC MALT1 BCL6

Other Individual FISH probes [510669]

Specify Probe: _____

FISH

FISH, Paraffin-embedded tissue [510825]

BONE MARROW TRANSPLANT

Xcen, Yq12
 Other _____

When ordering tests for which Medicare or Medicaid reimbursements will be sought, physicians should order only those tests that are medically necessary for the diagnosis or treatment of the patient.

Integrated Oncology is a brand used by both Accupath Diagnostic Laboratories, Inc. and Esoterix Genetic Laboratories, LLC, wholly-owned subsidiaries of Laboratory Corporation of America® holdings.

Determining Necessity of Advance Beneficiary Notice of Noncoverage (ABN) Completion*

1. **Diagnose.** Determine your patient's diagnosis.
2. **Document.** Write the diagnosis code(s) on the front of this requisition.
3. **Verify.** Determine if the laboratory test(s) ordered for the patient is subject to the Local Coverage Determination or National Coverage Determination. This information can be located in the policies published by Medicare Administrative Contractor (MAC), CMS, or the "Documenting Medical Necessity of Laboratory Services" booklet provided by your LabCorp representative.
4. **Review.** If the diagnosis code for your patient **does not** meet the medical necessity requirements set forth by Medicare or the test is being performed more frequently than Medicare allows, an ABN should be completed.

*An ABN should be completed for all tests that are considered investigational (experimental or for research use) by Medicare.

How to Complete an Advance Beneficiary Notice of Noncoverage (ABN)

Medicare is very specific in requiring that all of the information included on the ABN must be completed. Additionally, LabCorp requests that the specimen number or bar code label be included on the form. To be valid, an ABN must:

1. Be executed on the CMS approved ABN form (CMS-R-131).
2. Identify the Medicare Part B Beneficiary, using the name as it appears on the patient's red, white, and blue Medicare card.
3. Indicate the test(s)/procedure(s) which may be denied within the relevant reason column.
4. Include an estimated cost for the test(s)/procedures(s) subject to the ABN.
5. Have "Option 1", "Option 2", or "Option 3" designated by the beneficiary.
6. Be signed **and** dated by the beneficiary or his/her representative **prior to** the service being rendered.
